*We need to remember that these are children and not professional athletes, they are here playing a game to have fun not to be competing at an ultimate level. At this level, one of the most important aspects of athletics is good sportsmanship. If a child is to adopt this very important attitude, it must be displayed by those who influence his/her behavior. It is very important that the officials, coaches, and parents display this sportsmanship so the participants of our league have examples to follow. Please help us to achieve this part of our overall program. **Thank you.***
